INDEX OF SUBJECTS AND AUTHORS

Abscess, lung, pathology of bronchiectasis and, The, 626

——, ——, treatment of bronchiectasis and, bronchoscopic, The, 605

——, ——, —— —— —— ——, surgical, The, 612

—— of the brain, Tuberculous, 292

Acid-fast bacteria, fat constituents of, A discussion of certain, 746

Acidity, urinary, in tuberculosis, The, 182

ACKERMANN, W. The treatment of pericarditis with effusion by injections of air and lipiodol into the pericardial sac, 98

Acute experimental avian and bovine tuberculosis, viosterol in, A comparison of the effects of, 723

—— —— bovine tuberculosis of guinea pigs, viosterol in, Calcification following massive doses of, 65

Addiction, morphine, in tuberculosis, treatment of, The, by Pawlow's conditioning method, 682

Address of the president, 193

Aetiology and mechanics of massive atelectasis, The, 276

Air and lipiodol, injections of, into the pericardial sac, treatment of pericarditis with effusion by, The, 98

AMBERSON, J. BURNS, JR., MCMAHON, B. T., AND PINNER, MAX. A clinical trial of sanocrysin in pulmonary tuberculosis, 401

ANDERSON, R. J. A discussion of certain fat constituents of acid-fast bacteria, 746

Apparatus, artificial-pneumothorax, portable, A convenient, 236

Artificial-pneumothorax apparatus, portable, A convenient, 236

—— —— (Ascoli), primary, contralateral, The immediate results of, 50

—— ——, bilateral, simultaneous, A note on, 238

Artificial-pneumothorax apparatus, Kymographic tracings in, 245

—— ——, Thoracoplasty in the presence of, 95

Association, Tuberculosis, Dallas, The summer rest camp of the, 367

Atelectasis, massive, aetiology and mechanics of, The, 276

Attempt to grow paramoecia in pure cultures of tubercle bacilli, An, 363

Avian and bovine tuberculosis, acute experimental, viosterol in, A comparison of the effects of, 723

Bacilli, tubercle, An attempt to grow paramoecia in pure cultures of, 363

——, ——, isolation of, potato-egg medium for the, A, 596

——, ——, lysis of, in sputum, The, 351

——, ——, phagocytosis of, by leucocytes, The, 172

——, ——, rare, in sputum, demonstration of, The, 583

Bacillus, tubercle-, cultures, disease caused by, The, 73

——, ——, phosphatide from the, chemical and biological properties of the, Some observations on, 751

Bacteria, acid-fast, fat constituents of, A discussion of certain, 746

Bacterial derivatives, Biochemical studies of, XV, 729

—— ——, —— —— on, XVI, 737

BANYAI, ANDREW L. Diabetes and pulmonary tuberculosis, 650

BAYNE-JONES, STANHOPE, AND LUCE-CLAUSEN, ETHEL M. The specificity of light action in experimental tuberculosis, 686

BCG, innocuousness of, Present Knowledge of, 778

——, pathogenic properties of, The, 764

BETTMAN, RALPH BOERNE, AND BIESENTHAL, MAX. Thoracoplasty in the presence of artificial pneumothorax, 95

BIESENTHAL, MAX, AND BETTMAN, RALPH BOERNE. Thoracoplasty in the presence of artificial pneumothorax, 95
Bilateral artificial pneumothorax, simultaneous, A note on, 238
—— phrenic exairesis postpartum, Pregnancy and, 256
Biochemical studies of bacterial derivatives, XV, 729
—— —— on bacterial derivatives, XVI, 737.
Biological, chemical and, properties of the phosphatide from the tubercle bacillus, Some observations on, 751
BLACK, SAM, AND BROCK, BENJAMIN L. Tuberculosis in the negro, 136
BOGEN, EMIL. Racial susceptibility to tuberculosis, 522
BOISSEVAIN, C. H., AND RYDER, C. T. Some observations on chemical and biological properties of the phosphatide from the tubercle bacillus, 751
Bone tuberculosis in children, Vitamine D in, 106
BOQUET, A. The pathogenic properties of BCG. A critical review of the experiments of Sasano and Medlar, 764
BORQUIST, MAY, AND ROWE, CHARLOTTE. The phagocytosis of tubercle bacilli by leucocytes, 172
BOSWELL, HENRY. Address of the president, 193
Bovine tuberculosis, acute experimental avian and, viosterol in, A comparison of the effects of, 723
—— —— of guinea pigs, acute experimental, viosterol in, Calcification following massive doses of, 65
Brain, abscess of the, Tuberculous, 292
BRISKMAN, A. LEE. Undulant fever and pulmonary tuberculosis, 446
BROCK, BENJAMIN L., AND BLACK, SAM. Tuberculosis in the negro, 136
BROCK, BENJAMIN L. The sanocrysin treatment of pulmonary tuberculosis in the white and colored races, 436
Bronchiectasis and lung abscess, pathology of, The, 626
—— —— —— ——, treatment of, bronchoscopic, The, 605
—— —— —— ——, —— ——, surgical, The, 612
Bronchoscopic treatment of bronchiectasis and lung abscess, The, 605
Calcification following massive doses of viosterol in acute experimental bovine tuberculosis of guinea pigs, 65
—— in pulmonary tuberculosis, effect of viosterol (irradiated ergosterol) on, The, 483
Calcium, diffusible and nondiffusible, in tuberculosis, The distribution of, 346
CALLAHAN, F. F., AND LEGGETT, ELIZABETH A. Studies on the incidence of tuberculous infection, 113
Camp, rest, summer, of the Dallas Tuberculosis Association, 367
CARTER, B. NOLAND. Intrapleural pneumolysis, 199
Cavities in pulmonary tuberculosis, prognostic and social significance of, The, 461
——, primary, in pulmonary tuberculosis, position of, A study of the, 558
Chemical and biological properties of the phosphatide from the tubercle bacillus, Some observations on, 751
—— changes accompanying the growth of human tubercle bacillus H37 and bovine tubercle bacillus 523 grown on Long's synthetic medium, Some differential. Biochemical studies of bacterial derivatives, XVI, 737
Children, bone tuberculosis in, Vitamine D in, 106
——, school, Tuberculous infection among, in a rural area in New York State, 532
Civilian populations, tuberculosis mortality in, The influence of the world war on, 326
CLERF, LOUIS H. The bronchoscopic treatment of bronchiectasis and lung abscess, 605
Clinical diagnoses and pathological findings, A correlation of, with special reference to tuberculosis, 152
—— trial of sanocrysin in pulmonary tuberculosis, A, 401
COCKE, C. H. Pleural shock, 545
Collapse therapy, program for, A, 42
Committee report on the treatment of tuberculous empyema, 757

Comparison of the effects of viosterol in acute experimental avian and bovine tuberculosis, A, 723
Complicating diabetes mellitus, Pulmonary tuberculosis, 668
Conditioning method, Pawlow's, treatment of morphine addiction in tuberculosis by, The, 682
Constituents, fat, of acid-fast bacteria, A discussion of certain, 746
Contralateral primary artificial pneumothorax (Ascoli), The immediate results of, 50
Convenient portable artificial-pneumothorax apparatus, A, 236
COOK, CAROL E., KEGERREIS, ROY, AND SWEANY, HENRY C. A study of the position of primary cavities in pulmonary tuberculosis, 558
COOPER, FRANK B. The distribution of diffusible and nondiffusible calcium in tuberculosis, 346
Correlation of clinical diagnoses and pathological findings with special reference to tuberculosis, A, 152
Cultures, pure, of tubercle bacilli, An attempt to grow paramoecia in, 363
——, tubercle-bacillus, disease caused by, The, 73

Dallas Tuberculosis Association, The summer rest camp of the, 367
DAMEROW, ARTHUR P. An attempt to grow paramoecia in pure cultures of tubercle bacilli, 363
DAVIDSON, DORIS L., AND KAMINSKY, JACOB. The effect of viosterol (irradiated ergosterol) on calcification in pulmonary tuberculosis, 483
DAVIES, WILLARD J. The use of gomenol in tuberculous empyema, 263
Demonstration of rare tubercle in sputum, The, 583
Derivatives, bacterial, Biochemical studies of, XV, 729
——, ——, —— —— on. XVI, 737
Diabetes and pulmonary tuberculosis, 650
—— mellitus, Pulmonary tuberculosis complicating, 668
Diagnoses, clinical, and pathological findings, A correlation of, with special reference to tuberculosis, 152
Diagnosis of tuberculosis, guinea-pig inoculation in the, reliability of, The, 312
——, Old tuberculin administered subcutaneously for, 300
Diaphragm and mediastinum, Effects of posture on the, with special reference to phrenicectomy, 57
Dietetic treatment of pulmonary tuberculosis, Koumiss in the, 537
Diffusible and nondiffusible calcium in tuberculosis, The distribution of, 346
Discussion of certain fat constituents of acid-fast bacteria, A, 746
Disease caused by filtrates of tubercle-bacillus cultures, The, 73
——, pulmonary, nutrition problem in, Some considerations of the, 673
Distribution of diffusible and nondiffusible calcium in tuberculosis, The, 346
DOLGOPOL, VERA B., AND ROSENTHAL, L. The lysis of tubercle bacilli in sputum, 351
DOOLITTLE, S. E. A study of tuberculosis in one junior high school in Honolulu, 491
DREA, W. F. Vincent's infection of the mouth in tuberculosis patients, 678
DUFAULT, PAUL. Kymographic tracings in artificial pneumothorax, 245
DURYEA, ARTHUR W. Pregnancy and bilateral phrenic exairesis postpartum, 256

Effect of environment on normal and tuberculous guinea pigs, The, 695
—— —— viosterol (irradiated ergosterol) on calcification in pulmonary tuberculosis, The, 483
Effects of posture on the diaphragm and mediastinum, with special reference to phrenicectomy, 57
—— —— viosterol in acute experimental avian and bovine tuberculosis, A comparison of the, 723
Effusion, pericarditis with, treatment of, by injections of air and lipiodol into the pericardial sac, The, 98
Egg, potato-, medium for the isolation of tubercle bacilli, A, 596
Empyema, tuberculous, gomenol in, The use of, 263
——, ——, Phrenic neurectomy in, 46
——, ——, treatment of, report on the, Committee, 757

Environment, effect of, on normal and tuberculous guinea pigs, The, 695
Epidemiology of human tuberculosis, "Insusceptible strains" in the, 340
Epituberculosis, 285
(Ergosterol, irradiated), effect of viosterol, on calcification in pulmonary tuberculosis, The, 483
Etiology. See Aetiology.
EVANS, GEORGE F., AND SMITH, CHARLES E. Tuberculous abscess of the brain, 292
Exairesis, phrenic, bilateral, postpartum, Pregnancy and, 256
Experimental avian and bovine tuberculosis, acute, viosterol in, A comparison of the effects of, 723
—— bovine tuberculosis of guinea pigs, acute, viosterol in, Calcification following massive doses of, 65
—— tuberculosis, light action in, specificity of, The, 686
Extrapleural paraffin filling in thoracic surgery, 636

Fat constituents of acid-fast bacteria, A discussion of certain, 746
FELDMAN, WILLIAM H., AND MAGATH, THOMAS B. The reliability of guinea-pig inoculation in the diagnosis of tuberculosis, 312
Fever, Undulant, and pulmonary tuberculosis, 446
Filling, paraffin, Extrapleural, in thoracic surgery, 636
Filtrates of tubercle-bacillus cultures, disease caused by, The, 73
FISCHEL, KARL. The prognostic and social significance of cavities in pulmonary tuberculosis, 461
FISHER, LINCOLN. Effects of posture on the diaphragm and mediastinum, with special reference to phrenicectomy, 57
——, ——. Intrapleural pneumolysis, 213
FREILICH, ELLIS B., RAGINS, OSCAR B., AND LEWISON, MAURICE. A correlation of clinical diagnoses and pathological findings with special reference to tuberculosis, 152

Galen's treatment of pulmonary tuberculosis, 1
GASUL, B. M., AND GOLDBERG, B. Epituberculosis, 285
GLENN, JOHN T., MASUCCI, PETER, AND MCALPINE, K. L. Biochemical studies of bacterial derivatives. XVI. Some differential chemical changes accompanying the growth of human tubercle bacillus H37 and bovine tubercle bacillus 523 grown on Long's synthetic medium, 737
GOLDBERG, B., AND GASUL, B. M. Epituberculosis, 285
Gomenol in tuberculous empyema, The use of, 263
GORDON, BURGESS, AND EN SHUI TAI. Some considerations of the nutrition problem in pulmonary disease, 673
GOTTEN, HENRY B. Pulmonary tuberculosis complicating diabetes mellitus, 668
GRAYZEL, H. G., SHEAR, M. J., AND KRAMER, BENJAMIN. Vitamine D in bone tuberculosis in children, 106
GREENFIELD, MYRTLE. The effect of environment on normal and tuberculous guinea pigs, 695
GREENGARD, JOSEPH. Purpuric manifestations in tuberculosis, 452
Grow paramoecia in pure cultures of tubercle bacilli, An attempt to, 363
Guinea-pig inoculation in the diagnosis of tuberculosis, The reliability of, 312
Guinea pigs, acute experimental bovine tuberculosis of, viosterol in, Calcification following massive doses of, 65
—— ——, normal and tuberculous, effect of environment on, The, 695

HABLISTON, CHARLES C. A convenient portable artificial-pneumothorax apparatus, 236
HALSTED, WILLIAM S. Results of the open-air treatment of surgical tuberculosis, 371
HARRINGTON, STUART W. The surgical treatment of bronchiectasis and lung abscess, 612
HEAD, JEROME R., AND SCHLACK, O. C. A program for collapse therapy, 42
HEISE, FRED H., AND SCHWARTZ, WM. SPENCER. Variations in tuberculin sensitiveness in tuberculosis patients, 479

HEISE, FRED H., AND STEIDL, JOHN. Old tuberculin administered subcutaneously for diagnosis, 300
High school, junior, in Honolulu, tuberculosis in one, A study of, 491
HILL, H. W. "Insusceptible strains" in the epidemiology of human tuberculosis, 340
Honolulu, tuberculosis in one junior high school in, A study of, 491
Human tuberculosis, epidemiology of, "Insusceptible strains" in the, 340

Immediate results of contralateral primary artificial pneumothorax (Ascoli), The, 50
Incidence of tuberculous infection, Studies on the, 113
Infection, Tuberculous, among school children in a rural area in New York State, 532
——, ——, incidence of, Studies on the, 113
——, Vincent's, of the mouth in tuberculosis patients, 678
Influence of the world war on tuberculosis mortality in civilian populations, The, 326
Injections of air and lipiodol into the pericardial sac, treatment of pericarditis with effusion by, The, 98
Innocuousness of *BCG*, Present knowledge of, 778
Inoculation, guinea-pig, in the diagnosis of tuberculosis, The reliability of, 312
"Insusceptible strains" in the epidemiology of human tuberculosis, 340
Interpretation of the pathology of pulmonary tuberculosis, An, 705
Intrapleural pneumolysis, 199, 213
(Irradiated ergosterol), effect of viosterol, on calcification in pulmonary tuberculosis, The, 483
Isolation of tubercle bacilli, potato-egg medium for the, A, 596

Junior high school in Honolulu, tuberculosis in one, A study of, 491

KAMINSKY, JACOB. A note on simultaneous bilateral artificial pneumothorax, 238
KAMINSKY, JACOB, AND DAVIDSON, DORIS L. The effect of viosterol (irradiated ergosterol) on calcification in pulmonary tuberculosis, 484
KEGERREIS, ROY, SWEANY, HENRY C., AND COOK, CAROL E. A study of the position of primary cavities in pulmonary tuberculosis, 558
KLINE, B. S. The pathology of bronchiectasis and lung abscess, 626
KORNS, JOHN H. Tuberculous infection among school children in a rural area in New York State, 532
KOROL, EPHRAIM. The aetiology and mechanics of massive atelectasis, 276
Koumiss in the dietetic treatment of pulmonary tuberculosis, 537
KRAMER, BENJAMIN, GRAYZEL, H. G., AND SHEAR, M. J. Vitamine D in bone tuberculosis in children, 106
KRAUS, RUDOLF. Present knowledge of the innocuousness of *BCG*, 778
KRAUSE, ALLEN K. Editorial introduction: Results of the open-air treatment of surgical tuberculosis, Halsted, William S., 371
Kymographic tracings in artificial pneumothorax, 245

LEE, WALTER W. The influence of the world war on tuberculosis mortality in civilian populations, 326
LEGGETT, ELIZABETH A., AND CALLAHAN, F. F. Studies on the incidence of tuberculous infection, 113
Leucocytes, phagocytosis of tubercle bacilli by, The, 172
LEWISON, MAURICE, FREILICH, ELLIS B., AND RAGINS, OSCAR B. A correlation of clinical diagnoses and pathological findings with special reference to tuberculosis, 152
Light action in experimental tuberculosis, specificity of, The, 686
Lipiodol, injections of air and, into the pericardial sac, treatment of pericarditis with effusion by, The, 98
LUCACER, M. The immediate results of contralateral primary artificial pneumothorax (Ascoli), 50

LUCE-CLAUSEN, ETHEL M., AND BAYNE-JONES, STANHOPE. The specificity of light action in experimental tuberculosis, 686

Lung abscess, pathology of bronchiectasis and, The, 626

—— ——, treatment of bronchiectasis and, bronchoscopic, The, 605

—— ——, —— —— —— ——, surgical, The, 612

Lysis of tubercle bacilli in sputum, The, 351

MAGATH, THOMAS B., AND FELDMAN, WILLIAM, H. The reliability of guinea-pig inoculation in the diagnosis of tuberculosis, 312

Massive atelectasis, aetiology and mechanics of, The, 276

MASUCCI, PETER, AND MCALPINE, K. L. Biochemical studies of bacterial derivatives. XV. Changes in the chemical and biological properties of human tubercle bacillus polysaccharide MB-200 produced by mild acid hydrolysis, 729

——, ——, MCALPINE, K. L., AND GLENN, JOHN T. Biochemical studies of bacterial derivatives. XVI. Some differential chemical changes accompanying the growth of human tubercle bacillus H37 and bovine tubercle bacillus 523 grown on Long's synthetic medium, 737

MCALPINE, K. L., AND MASUCCI, PETER. Biochemical studies of bacterial derivatives. XV. Changes in the chemical and biological properties of human tubercle bacillus polysaccharide MB-200 produced by mild acid hydrolysis, 729

——, ——. ——., GLENN, JOHN T., AND MASUCCI, PETER. Biochemical studies of bacterial derivatives. XVI. Some differential chemical changes accompanying the growth of human tubercle bacillus H37 and bovine tubercle bacillus 523 grown on Long's synthetic medium, 737.

MCCLUSKEY, K. LUCILLE. The urinary acidity in tuberculosis, 182

MCMAHON, B. T., PINNER, MAX, AND AMBERSON, J. BURNS, JR. A clinical trial of sanocrysin in pulmonary tuberculosis, 401

Mechanics of massive atelectasis, aetiology and, The, 276

Mediastinum, Effects of posture on the diaphragm and, with special reference to phrenicectomy, 57

Medium, potato-egg, for the isolation of tubercle bacilli, A, 596

MEDLAR, E. M., AND SASANO, K. T. An interpretation of the pathology of pulmonary tuberculosis, 705

Morphine addiction in tuberculosis, treatment of, The, by Pawlow's conditioning method, 682

Mortality, tuberculosis, in civilian populations, The influence of the world war on, 326

Mouth, Vincent's infection of the, in tuberculosis patients, 678

Negro, Tuberculosis in the, 136

——, white and, races, The sanocrysin treatment of pulmonary tuberculosis in the, 436

Neurectomy, Phrenic, in tuberculous empyema, 46

New York State, rural area in, Tuberculous infection among school children in a, 532

Nondiffusible calcium in tuberculosis, The distribution of diffusible and, 346

Normal and tuberculous guinea pigs, effect of environment on, The, 695

Note on simultaneous bilateral artificial pneumothorax, A, 238

Nutrition problem in pulmonary disease, Some considerations of the, 673

Old tuberculin administered subcutaneously for diagnosis, 300

Open-air treatment of surgical tuberculosis, Results of the, 371

Paraffin filling, Extrapleural, in thoracic surgery, 636

Paramoecia, An attempt to grow, in pure cultures of tubercle bacilli, 363

Pathogenic properties of *BCG*, The, 764

Pathological findings, A correlation of clinical diagnoses and, with special reference to tuberculosis, 152

Pathology of bronchiectasis and lung abscess, The, 626

Pathology of pulmonary tuberculosis, interpretation of, An, 705
Patients, tuberculosis, tuberculin sensitiveness in, Variations in, 479
——, ——, Vincent's infection of the mouth in, 678
Pawlow's conditioning method, treatment of morphine addiction in tuberculosis by, The, 682
Pericardial sac, injections of air and lipiodol into the, treatment of pericarditis with effusion by, The, 98
Pericarditis with effusion, treatment of, by injections of air and lipiodol into the pericardial sac, The, 98
PETRIK, FRANK G., AND WOOLLEY, J. STANLEY. A potato-egg medium for the isolation of tubercle bacilli, 596
Phagocytosis of tubercle bacilli by leucocytes, The, 172
Phosphatide from the tubercle bacillus, chemical and biological properties of the, Some observations on, 751
Phrenic exairesis postpartum, bilateral, Pregnancy and, 256
Phrenic neurectomy in tuberculous empyema, 46
Phrenicectomy, Effects of posture on the diaphragm and mediastinum, with special reference to, 57
PINNER, MAX, AMBERSON, J. BURNS, JR., AND MCMAHON, B. T. A clinical trial of sanocrysin in pulmonary tuberculosis, 401
——, ——, AND VOLDRICH, MARIE. The disease caused by filtrates of tubercle-bacillus cultures, 73
Pleural shock, 545
Pneumolysis, Intrapleural, 199, 213
Pneumothorax, artificial-, apparatus, portable, A convenient, 236
——, ——, (Ascoli), primary, contralateral, The immediate results of, 50
——, ——, bilateral, simultaneous, A note on, 238
——, ——, Kymographic tracings in, 245
——, ——, Thoracoplasty in the presence of, 95
Polysaccharide MB-200, tubercle bacillus, human, produced by mild acid hydrolysis, Changes in the chemical and biological properties of. Biochemical studies of bacterial derivatives, XV, 729
Populations, civilian, tuberculosis mortality in, The influence of the world war on, 326
Portable artificial-pneumothorax apparatus, A convenient, 236
Position of primary cavities in pulmonary tuberculosis, A study of the, 558
Postpartum, bilateral phrenic exairesis, Pregnancy and, 256
Posture, Effects of, on the diaphragm and mediastinum, with special reference to phrenicectomy, 57
Potato-egg medium for the isolation of tubercle bacilli, A, 596
POTTENGER, JOSEPH E. The demonstration of rare tubercle bacilli in sputum, 583
Pregnancy and bilateral phrenic exairesis postpartum, 256
Present knowledge of the innocuousness of *BCG*, 778
President, Address of the, 193
Primary artificial pneumothorax (Ascoli), contralateral, The immediate results of, 50
—— cavities in pulmonary tuberculosis, position of, A study of the, 558
Problem, nutrition, in pulmonary disease, Some considerations of the, 673
Prognostic and social significance of cavities in pulmonary tuberculosis, The, 461
Program for collapse therapy, A, 42
Properties of the phosphatide from the tubercle bacillus, chemical and biological, Some observations on, 751
——, pathogenic, of *BCG*, The, 764
Pulmonary disease, nutrition problem in, Some considerations of the, 673
—— tuberculosis, calcification in, effect of viosterol (irradiated ergosterol), on, The, 483
—— ——, cavities in, prognostic and social significance of, The, 461
—— ——, complicating diabetes mellitus, 668
—— ——, Diabetes and, 650
—— ——, pathology of, interpretation of, An, 705

Pulmonary tuberculosis, primary cavities in, position of, A study of the, 558
—— ——, sanocrysin in, A clinical trial of, 401
—— ——, treatment of, dietetic, Koumiss in the, 537
—— ——, —— ——, Galen's, 1
—— ——, —— ——, sanocrysin, in the white and negro races, The, 436
—— ——, Undulant fever and, 446
Pure cultures of tubercle bacilli, An attempt to grow paramoecia in, 363
Purpuric manifestations in tuberculosis, 452

Races, white and negro, The sanocrysin treatment of pulmonary tuberculosis in the, 436
Racial susceptibility to tuberculosis, 522

—— observations on chemical and biological properties of the phosphatide from the tubercle bacillus, 751
Specificity of light action in experimental tuberculosis, The, 686
SPIES, TOM DOUGLAS, AND WALKER, THOMAS TIPTON. A comparison of the effects of viosterol in acute experimental avian and bovine tuberculosis, 723

SPIES, TOM DOUGLAS, AND WALKER, THOMAS TIPTON. Calcification following massive doses of viosterol in acute experimental bovine tuberculosis of guinea pigs, 65
Sputum, lysis of tubercle bacilli in, The, 351
——, tubercle bacilli in, rare, demonstration of, The, 583
STEIDL, JOHN, AND HEISE, FRED H. Old tuberculin administered subcutaneously for diagnosis, 300
"Strains, Insusceptible," in the epidemiology of human tuberculosis, 340
Studies, Biochemical, of bacterial derivatives, XV, 729
—— on bacterial derivatives, Biochemical. XVI, 737
—— —— the incidence of tuberculous infection, 113
Study of the position of primary cavities in pulmonary tuberculosis, A, 558
—— —— tuberculosis in one junior high school in Honolulu, A, 491
Subcutaneously for diagnosis, Old tuberculin administered, 300
Summer rest camp of the Dallas Tuberculosis Association, The, 367
SUNDBERG, R. H. Phrenic neurectomy in tuberculous empyema, 46
Surgery, thoracic, paraffin filling in, Extrapleural, 636
Surgical treatment of bronchiectasis and lung abscess, The, 612
—— tuberculosis, treatment of, open-air, Results of the, 371
Susceptibility to tuberculosis, Racial, 522
SWEANY, HENRY C., COOK, CAROL E., AND KEGERREIS, ROY. A study of the position of primary cavities in pulmonary tuberculosis, 558

TAI, EN SHUI, AND GORDON, BURGESS. Some considerations of the nutrition problem in pulmonary disease, 673
Therapy, collapse, program for, A, 42
Thoracic surgery, paraffin filling in, Extrapleural, 636
Thoracoplasty in the presence of artificial pneumothorax, 95
Tracings, Kymographic, in artificial pneumothorax, 245
Treatment, bronchoscopic, of bronchiectasis and lung abscess, The, 605
—— of morphine addiction in tuberculosis by Pawlow's conditioning method, The, 682
—— —— pericarditis with effusion by injections of air and lipiodol into the pericardial sac, The, 98
—— —— pulmonary tuberculosis, dietetic, Koumiss in the, 537
—— —— —— ——, Galen's, 1
—— —— —— ——, sanocrysin, in the white and negro races, The, 436
—— —— surgical tuberculosis, open-air, Results of the, 371
—— —— tuberculous empyema, report on the, Committee, 757
——, surgical, of bronchiectasis and lung abscess, The, 612
Tubercle bacilli, An attempt to grow paramoecia in pure cultures of, 363
—— ——, isolation of, potato-egg medium for the, A, 596
—— ——, lysis of, in sputum, The, 351
—— ——, phagocytosis of, by leucocytes, The, 172
—— ——, rare, in sputum, demonstration of, The, 583
Tubercle-bacillus cultures, disease caused by, The, 73
—— ——, phosphatide from the, chemical and biological properties of the, Some observations on, 751
Tuberculin, Old, administered subcutaneously for diagnosis, 300
—— sensitiveness in tuberculosis patients, Variations in, 479
Tuberculosis, A correlation of clinical diagnoses and pathological findings with special reference to, 152
—— Association, Dallas, The summer rest camp of the, 367
——, avian and bovine, acute experimental, viosterol in, A comparison of the effects of, 723
——, bone, in children, Vitamine D in, 106
——, diagnosis of, guinea pig inoculation in the, reliability of, The, 312
——, diffusible and nondiffusible calcium in, The distribution of, 346

Tuberculosis, experimental, light action in, specificity of, The, 686
——, human, epidemiology of, "Insusceptible strains" in the, 340
—— in one junior high school in Honolulu, A study of, 491
—— —— the negro, 136
—— mortality in civilian populations, The influence of the world war on, 326
—— of guinea pigs, acute experimental bovine, viosterol in, Calcification following massive doses of, 65
——, morphine addiction in, treatment of, The, by Pawlow's conditioning method, 682
—— patients, tuberculin sensitiveness in, Variations in, 479
—— ——, Vincent's infection of the mouth in, 678
——, pulmonary, calcification in, effect of viosterol (irradiated ergosterol) on, The, 483
——, ——, cavities in, prognostic and social significance of, The, 461
——, ——, complicating diabetes mellitus, 668
——, ——, Diabetes and, 650
——, ——, pathology of, interpretation of, An, 705
——, ——, primary cavities in, position of, A study of the, 558
——, ——, sanocrysin in, A clinical trial of, 401
——, ——, treatment of, dietetic, Koumiss in the, 537
——, ——, —— ——, Galen's, 1
——, ——, —— ——, sanocrysin, in the white and negro races, The, 436
——, ——, Undulant fever and, 446
——, Purpuric manifestations in, 452
——, Racial susceptibility to, 522
——, surgical, treatment of, open-air, Results of the, 371
——, urinary acidity in, The, 182
Tuberculous abscess of the brain, 292
—— empyema, gomenol in, The use of, 263
—— ——, Phrenic neurectomy in, 46
—— ——, treatment of, report on the, Committee, 757
—— guinea pigs, effect of environment on normal and, The, 695
Tuberculous infection among school children in a rural area in New York State, 532
—— ——, incidence of, Studies on the, 113

Undulant fever and pulmonary tuberculosis, 446
Urinary acidity in tuberculosis, The, 182
Use of gomenol in tuberculous empyema, The, 263

Variations in tuberculin sensitiveness in tuberculosis patients, 479
Vincent's infection of the mouth in tuberculosis patients, 678
Viosterol in acute experimental avian and bovine tuberculosis, A comparison of the effects of, 723
—— —— —— —— bovine tuberculosis of guinea pigs, Calcification following massive doses of, 65
—— (irradiated ergosterol), effect of, on calcification in pulmonary tuberculosis, The, 483
Vitamine D in bone tuberculosis in children, 106
VOLDRICH, MARIE, AND PINNER, MAX. The disease caused by filtrates of tubercle-bacillus cultures, 73

WALKER, THOMAS TIPTON, AND SPIES, TOM DOUGLAS. A comparison of the effects of viosterol in acute experimental avian and bovine tuberculosis, 723
——, —— ——, —— ——, —— ——. Calcification following massive doses of viosterol in acute experimental bovine tuberculosis of guinea pigs, 65
